**SYNOPSIS**

Learn to use PowerShell, Microsoft's scripting language, to automate real-world tasks that IT professionals and system administrators deal with every day. Bridge the gap between scripting and operations personnel with Automate the Boring Stuff with PowerShell. With PowerShell, you can automate tasks with scripts without having to learn the complicated ins and outs of programming. After you familiarize yourself with PowerShell's intuitive syntax, you'll apply your knowledge by designing and developing scripts for lots of daily situations IT personnel find themselves in every day. You'll then end with learning how to build a large project to automate server deployments from scratch written completely in PowerShell. In Part One, you'll be brought up to an intermediate knowledge level of PowerShell by exploring the ins and outs of core concepts with PowerShell's intuitive syntax. In Part Two, you'll begin to apply your knowledge and develop various scripts to automate all kinds of
